KEY CONCEPTS:

For a fun week, we played with the Turtle Module this week. LOGO was frequently used a first programming language for children, and an implementation of it is available in Python through the Turtle package

You can refer to documentation here:
https://docs.python.org/3/library/turtle.html

Class Code:
https://colab.research.google.com/drive/14X0vnG0i9w588453T4HQPSsaRWVP4D6l

Homework:

```
# HW: ask the user for a integer n between 3 and 180, and a draw an equilateral
# polygon of n sides
```
