

PLEASE SUBMIT YOUR WORK THROUGH GOOGLE CLASSROOM

OPTION 1: print this page, fill in your answers by hand, take a picture or scan, upload, and attach
OPTION 2: create and attach a google document with your answers (no need to copy the assignment itself)

1. Review Lecture #5. Try “*The Plate Boundary Experiment*” from the last slide.
2. The map below shows major tectonic plates of the modern Earth and their relative movement (look carefully at the direction of black arrows).

What type (divergent, convergent or transform) of plate boundary is found at:

- a. ★ (Los Angeles) ?
- b. ▲ (Peru-Chile Trench) ?
- c. + (Himalayas) ?
- d. ◆ (Iceland) ?
- e. ★ (Japan) ?
- f*. 😊 (New York 😊) ?
